CS-111 Programming Fundamentals II   Winter 2017

Programming Project 3

Please read the "Guidelines" document in `/home/cs-111/Documents`, and *follow them closely*.

Due: Mon, Mar 13, 11:59pm.

1. You are setting up an automotive business in Ellensburg, to perform the following services. To prepare the invoice you are writing a GUI, which will provide *check boxes* for the standard services:

Oil Change	$26.00
Lubrication	$18.00
Radiator flush	$ 30.00
Transmission flush	$80.00
Inspection	$ 15.00
Muffler replacement	$ 110.00
Tire rotation	$ 25.00

   plus some text field(s) to enter additional hours of labor for repairments and so on. These should be charged at 45.00 per hour. On output, your program, must display a window with the dollar amounts for:

   Standard Services:
   Labor:
   Total:
   Taxes:
   Amount Due:
